HONORABLY DISCHARGED.—This morning John Kimbro was arraigned before Justice Butt on the charge of furnishing files to Joseph Fry.

Solicitor General Glenn stated that upon consulting with the witnesses he was satisfied there was no case against Mr. Kimbro. Mr. Davis, one of the witnesses, said he heard the two other witnesses say that Mr. Kimbro furnished the files, but the other witnesses state that Mr. Davis misunderstood them. The Solicitor General stated that the Committee acted upon what was deemed, at the time, reliable information. The case arose from a misunderstanding. He did not propose to annoy an innocent man, or even bind a man over, unless there was proof to ensure conviction.

Messrs. Hill and Howell, counsel for the defendant, stated that they were convinced from the first that the case arose from a misunderstanding, and that their client was innocent. They informed their client at the start that if he was not innocent they would not defend him. They believed that the committee and the Solicitor General acted in good faith in the matter.

On motion of the Solicitor General, Mr. John Kimbro was honorably discharged and the warrant dismissed.

SUNDAY SCHOOL TEACHERS' INSTITUTE. The topic for discussion last night was: The importance of class-teaching of all grades, and how to make it most efficient.

The first speaker was Rev. H. C. Hornady, who interested the congregation in one of his usually earnest and happy efforts.

Dr. Randolph would have three departments in every Sunday school. The infant, intermediate, and adult, and he would not rest satisfied until all were full.

He then gave, at some length, detailed and very practical suggestions as to the best methods of teaching in the several departments. Dr. Randolph is evidently a thorough master of the Sunday school in all of the details of its several departments.

He was followed by Rev. Mr. Fish, who urged that teachers should *love* their pupils, and should be very careful to set them at all times proper examples. He made other very practical remarks interspersed with very apposite and at times amusing incidents.

Mr. Fish is one of the most entertaining and instructive Sunday School talkers we have ever heard. At the close of Mr. Fish's remarks, Dr. Spalding made a few appropriate remarks, and offered the following resolution, which was unanimously and very heartily adopted:

Resolved, That the thanks of this audience are hereby tendered to our brethren, Rev. Dr. Randolph and Rev. L. B. Fish, for their labors in this brief Institute, with the assurance of our affectionate regards for their continued usefulness in their service of our Lord Jesus.

Rev. E. W. Warren desired, as one of the pastors, to join in the cordial thanks of these brethren.

Dr. Randolph made an appropriate acknowledgment, and at the earnest request of the audience, gave a deeply interesting sketch of his recent visit to the Sea of Gallilee.

The audience remained until half-past ten, deeply interested.

OUR MARDI GRAS LETTER.

About the Trip--Incidents and Scenes--The Grand Duke Alexis and a Good Deal About Him--Our Correspondent Takes a Drink with Him--in a Horn--The Opera--Col. Duncan.

NEW ORLEANS, LA., Feb. 13th, 1872.

Editors Constitution: What is more delightful than traveling with a railroad excursion party? of cultivated and refined people and pretty girls? It is a continuous sociable, and if to that you add the variety of scenery of mountains and valleys, hills and lakes and ocean views, and the admirable ticket agent, Beverly Wrenn, and his lovely wife, to take care of the whole party with beaming hospitality; then, then, indeed, echo will answer my question—"what?"

But, alas, no pleasure is unmixed—the girls were

DREAMING OF ALEXIS

and a grand duchey, and perhaps, an empire beneath their sway. They remembered Jerome and the Baltimore belle, and dreamed on and on, and forgot to know that it was simply the unsubstantial vision, the airy nothing, the

CASTLE IN THE AIR,

of West's Voyage of Life, to which they would give the local habitation and name of

ALEXIS.

If they but cease their dreaming and reflect, they will know that

PRINCE FRED GRANT

is a better medium for attaining the purple. Let me pass over the

INCIDENTS OF TRAVEL

more pleasurable in the occurrence than in the relation, and permit me to announce, with a flourish and a bow, that we are in the

CRESCENT CITY

that sleeps in antique beauty upon the western bank of the grandly rolling Mississippi.

En passant, I will remark that the road from Mobile to New Orleans is smooth and pleasant, and the most inspiring emotions are excited as we skirt the Gulf and glide over the inlets and sounds; and though we missed the full-orbed sunset on the Gulf by reason of the western cloud banks, yet the artistic efforts of West and Guido and Raphael are but feeble in comparison with these picturings in the sky from the hand of the

MASTER ARTIST.

But again I say, we are in New Orleans; and so are many thousand others from various parts of the Union. How many I will not say, but a vast number; 75,000? 50,000? 30,000? 25,000? I don't know. I give it up. I never could guess well. Facts were ever more pleasing to me than speculations. I only know that all the hotels from the grand rivals, St. Charles and St. Louis, to the insignificant private lodging houses are full to overflowing. The most

DISAGREEABLE FACT

that greeted my arrival was the fact of Sunday night. Theaters, I was informed, are in full blast and in utter disregard of the Sabbath.

The next most disagreeable fact was an occurrence of the next day—Monday. I had started to the popular brokerage and commission house of Wood, Ketcham & Co., No. 32 Carondelet street, when a sudden tumult arrested my attention. I turned and saw driving rapidly in the direction of the St. Charles a half dozen carriages, with outriders in livery. I instantly surmised that it was

ALEXIS,

and in the jocular vernacular of Watson, I inquired, what A lex is? The streets and sidewalks were lined with a rapidly increasing and running crowd of the base plebeian rabbel, who were shouting for and adoring an overgrown Russian booby, because, forsooth, he was a

SCION OF ROYALTY.

I had often endeavored to picture in my mind, when following the tracings of the historian and dramatist, the appearance of the rabble of Rome and Paris when they gathered in tumultuous throngs in adulation of a real or fictitious hero; but I never thought America would furnish me a practical and living illustration of it.

Alexis Romanoff was born in 1850 and is a little more than twenty-one years of age. His royal blood is traceable for one thousand years, to the foundation of the Russian Empire, about 860, A. D., I believe. He is the third son of the Czar Nicholas, and his eldest brother has a son who is heir presumptive to the throne. So Alexis, chances for the purple are slim.

It is said however that he killed a buffalo, yet when I hear it gravely announced I cannot help from exclaiming,

> "Can such things be
> And not overcome us like a summer cloud,
> Without our special wonder?"

The municipal government has appropriated $1,500, I believe, for his expenses here, and it is positive robbery. I confess that Hercules slew the Numidian lion and Alexis the American buffalo; yet it is robbery, nevertheless, because these city officers are not the city's agents, but the creatures and appointees of Gov. Warmouth. Base robbery; and Louisiana groans in despair over her oppressions and slavery—State and municipal. They are all ready, even now, to welcome Federal despotism instead.

I went to the French Opera last night (Monday) and heard

IL TROVATORE.

This is a permanent institution here and is a very great attraction The leading tenor gets $2,000 per month for the six month's season. The actors were brought from Paris last October under an engagement for the season. The building is a very fine one, on Bourbon street. It has its refreshment saloons, promenade saloons and courts to which the audience may retire between acts. It has numerous private boxes on the first, second and third floors, and altogether is quite equal to the opera houses of some of the most renowned centres of fashion.

ALEXIS SAT

in the grand box on the left of the dress circle on the second floor. His box was furnished in purple. He came in late. The orchestra played a Russian hymn as he entered; he stood a moment and bowed acknowledgment, and the audience cheered. For the benefit of your Georgia fashionables, I will tell you

HOW HE WAS DRESSED.

A full suit of black cloth, spike-tail coat and black vest, with two buttons to show his linen. White kid gloves and white silk cravat complete the description.

I directed my opera glass at him, at long range, and pronounce him—if hero at all—an animal, and not an intellectual hero. Full, round, well-fed looking face, whose distinguished feature, as it attempted to play under the delineations of the drama, was a sort of comical good humor.

At first he paid no attention to the leading female actor, who was making desperate efforts to catch his attention. Afterwards, however, he applauded a little with his hands, seemingly at the promptings of his suite who surrounded him.

His hands were very large, and when he applauded with them, they looked like the paws of a Polar bear. Indeed he reminded me in his proportions, very much of that animal, and in his appearance of a —— sheep.

When I say that he had the sandy complexion and hair of his countrymen, and wore side whiskers, and was a little awkward, I will say to him:

"Fare thee well, and if forever, etc."

To-day is Mardi Gras, and I will tell you all about that to-morrow. In this connection I will say that I cannot say how much I am indebted to you for your kind letter to Col. Duncan, the English editor of the Bee. His kind attentions have been invaluable to me. He is doing much for Georgia and Georgians, as I will take occasion to show in my next. More anon. SIDNEY.

The Cherokee Railroad.

The Rockmart Reporter says the sale of that portion of the Cherokee Railroad bed and appurtenances lying in Polk county, which was to have been sold by the Sheriff, before the court house door, in Cedar Town, on last Tuesday, regular sale day, was prevented by the filling of an injunction in favor of the State of Georgia.

A Masquerade Ball.

For some time our young folks have been discussing the project of having a grand Masquarade ball in Atlanta. Augusta, Macon and other places have had them. The young gallants of Atlanta do not wish to be behind hand. Our German friends had one on a limited scale. But it is desirable to get up a grand general affair. Who will take the lead?

Street Railroads.

Judge Schley, of Savannah, has decided that the Street Railroad cannot run through the public squares, but go around them. The charter granted by the Legislature gave the right. The grounds of the decision are that the Legislature has no authority to grant such a right against the authority of Savannah, and the vested rights of the people to use the squares. The City Council obtained the injunction.

The Great Western Canal.

CONYERS, February 15, 1872.

Editors Constitution: Many of the most intelligent people in this county feel deeply interested in the matter of "The Great Western Canal," and would be pleased to have information on the following particulars:

1. Is it proposed to propel the boats by steam any part or all the distance?

2. How much depth of water will be required?

3. From the junction of the Yellow river, South river and Alcovy, which form the Ocmulgee, down to Macon, which is perhaps fifty miles by the river, there is average depth of from seven to twelve feet water; and from Macon to the coast, a distance of some three hundred to three hundred and fifty miles, water sufficient to run boats at all seasons of the year; why not at least run this portion by steam?

The undertaking, considered in all its bearings, is certainly one of vast importance, not only to Georgia but to all the adjoining States. Rockdale county alone can spare granite of first quality sufficient to build a wall equal to the Chinese wall around half of our coast border, etc.

Very respectfully,
S. W. BRYANT.

We will state that the question of using steam on the canal is not yet settled. We will however take occasion to correct a widespread error relative to the use of steam upon canals. The great anxiety manifested by the Erie Canal to use steam grows out of the fact that the time between the harvesting of the crop in the Western States and the closing of the canal (by ice) is so short that it is impossible to move that crop by the present means before the canal is frozen up. This is the secret, and it is not, as many suppose, due to the present mode of propelling canal boats.

The dimensions of the canal will be the same of those of the New York Erie Canal, 70 feet wide and six deep. Its capacity, however, will be double that of the Erie, because it will never be closed by ice.

The engineers are now surveying the Ocmulgee river, and their report will determine the fact whether any portion of that river, above Macon, can be made available for steam navigation. Our people may, however, rest assured that nothing will be left undone to insure the success of this great enterprise and to give them all the benefits of cheap transportation.

The Atlantic and Gulf Road.

The seventeenth annual meeting of the stockholders of this road was held on Wednesday, representing 31,993 shares. President Screven reported the gross earnings of the company for the year 1871, exclusive of amounts not yet adjusted with contracting companies, but which belong to the earnings of the year, amount to $1,044,667.98, derived as follows:

From Freight	$791,280 66
" Passage	217,506 62
" Mails	21,720 00
" Incidental Sources	14,161 70
Total	$1,044,667 98

As compared with the earnings of the previous year, the earnings for 1871 show an increase of $12,696 97. The expenses were $794,529.

The latter part of 1871 was bad for business, the receipts of cotton falling off 56,276 bales over the same time of the year before.

This road is an unfinished enterprise, the extension to Pensacola or Mobile being the original purpose, which will be carried out. The success of the road is altogether flattering, its prospects bright, and its influence potential and valuable in thwarting the vast railway consolidation scheme that is grasping at our Southern railroads. The advantages of this route are thus stated by Col. Screven:

"Assuming New York as the objective point, the route via Mobile, Montgomery, Atlanta, and the Richmond Air-Line, will be about two hundred miles shorter than the route by the extension of the Atlantic and Gulf Railroad via the Coast Roads, while the latter route beyond Savannah may be in adverse control. Savannah must, therefore, depend on her advantages by sea to Northern and foreign ports, in conjunction with her possessing a short rail route between New Orleans, Mobile and the Atlantic. Computing the distance between New Orleans and New York, by what is known as the Richmond Air-Line, at 1,363 miles, the distance from New Orleans to Savannah would be 614 miles, and the freight mileage from Savannah to New York by sea would be 200 miles, making a total of 814 miles against 1,363, and a difference of 449 miles in favor of the rail and water route via Savannah. The time made on the latter would be nearly the same as on the former route in the transportation of freights, while the difference of cost must go to the advantage of the latter in the ratio of the difference of freight mileage, or nearly as 8 is to 14."

He urges action looking to the extension, and resolutions were passed to this effect. The proposition of Mr. Morris Ketchum to lease the road, was acted on by resolution inviting a specific offer from Mr. Ketchum.

The following directors were elected: John Screven, R. D. Arnold, Wm. Duncan, John Stoddard, Hiram Roberts, Charles Green, W. H. Wiltberger, J. L. Villalogna, A. M. Sloan, Edward Lovell, R. H. Hardaway, A. T. McIntyre, W. J. Young, C. J. Munnerlyn, W. O. Flemming.

The road is stocked as follows: 19 passenger cars, 3 smoking and baggage cars, 3 mail and express cars, 219 box cars (including 33 used for conductors, express and baggage cars,) 101 platform cars (including 18 in road service), 11 stock cars, 4 cars in road service, 360 cars in all.

Three mail and express, three smoking and baggage, fifty-five box, and twenty-five platform cars; also, one wrecking and one pile-driver car have been built this year. Two passenger cars are now under construction.

There is no better managed road in the State than this road. President Screven and Superintendent Haynes are two of the most efficient and successful railroad men in the whole country.

LEASE OF THE SOUTH CAROLINA RAILROAD.

Mayor John H. James Makes a Speech and Creates a Rattling of the Dry Bones—He Speaks for James and not for the Mayor—Interesting Proceedings.

The following extract from the proceedings of the South Carolina Railroad Convention on Tuesday, in Charleston, will show what the situation is with regard to the lease:

No further business being presented, Mr. DeLeon moved an adjournment until noon on Wednesday, which was withdrawn at the instance of Mr. R. W. Cubbedge, who offered the following preamble and resolution:

Whereas, It is reported that an offer has been made of a lease of the South Carolina Railroad for a term of years at the rate of four per cent. per annum; and,

Whereas, The stockholders are desirous of getting some return for their investment; be it therefore

Resolved, That if an offer of five per cent or more is made for the lease of our road, the President and directors are hereby authorized to call a meeting of the stockholders for the purpose of considering any such offer, by giving sixty days' notice in the city papers. All stock held thirty days prior to said meeting shall be entitled to vote, and stockholders passed to and from the meeting as usual.

A member rising to second the resolution said: "I am a stockholder, and I will tell you who I am. My name is John H. James, of Atlanta, Ga., banker. I run James' bank. I have eighteen hundred shares in the South Carolina Railroad, and have no interest in any other road, except in a street railway in Atlanta. I am Mayor of Atlanta, but I am not here as Mayor, but to look after the interests of John H. James. I want a dividend on my stock. The President and Directors had done well to put the road in so good a fix, but if a lease, paying six or seven per cent. could be got for the road, it would be a big thing. The lease could be protected by the Directors in this city, and it would pay the stockholders something. And how could Charleston be damaged? With a proper board of directors, it is impossible for the Georgia Central road to hedge in Charleston or injure her. It is an important matter to the city; and if the Georgia Central offer six or seven per cent. on a lease, they ought to have the road. It is said they now control one-third of the South Carolina Railroad stock. It is worth but forty, and a lease guaranteed by the Central Railroad would put the Stock at 80—a gain to the stockholders of two and a half million dollars. I have seen the sensation pieces in the papers, but these are for the stockholders alone. One of the directors of the Georgia Central Road (Mr. Moses Taylor) is worth thirty millions of dollars, and, if he gets his back up, can buy up the whole South Carolina Railroad, and every other road he wants to. If, then, while you have the road, you can make a lease of it for six or seven per cent., it is more than we can get any other way—that or nothing. You can guard the lease so that it will work no injury to Charleston. It is one of the issues of the day. Meet it like men. I have no more to say."

General Tyler here rose, and inquired of President Magrath if any offer had officially been made to lease the South Carolina Road.

The President stated that no such offer had been made.

General Tyler then moved to lay the preamble and resolution offered by Mr. Cubbedge on the table.

The vote was taken, and the preamble and resolution was laid on the table, with two dissenting votes—those of the mover and the seconder.

On Wednesday the Convention met again. Lengthy speeches were made. Resolutions were passed calling on the people to resist the attempt at a lease, and urging co-operation between the Carolina and Georgia railroads to thwart the efforts of Northern railway combinations to obtain control of Southern roads. The Charleston papers pitched into Mayor James. Mr. James stood his ground steadily, and made the following additional speech Wednesday:

Mr. John H. James, of Atlanta, rose and said: The people of Charleston have misconstrued what I said. I came here in the interest of *no* railroad. Atlanta is not opposed to Charleston. She gives the Charleston route more business than she gives Savannah or Macon. But railroads ought to pay. They ought to pay dividends. I don't know Mr. Moses Taylor—never saw him. I repeated what was told me. I bought stock in the South Carolina Railroad because it can be made to pay. I saw there was fight up, and James could make something out of it. You said you were going to defend yourselves against the Ring by buying up the stock. I warned you yesterday you would be bought out. Did you do it? Why, this morning how much stock was offered along the streets? I was offered four hundred shares. Now, if you want to keep the road why don't you buy that stock? What I buy I keep till I can get a profit. Then the man who bids highest takes the stock. I am for making money, and only spoke for James.

When the Election for State House Officers Should Be Held.

Editors Constitution: Some of our readers are of opinion that when the General Assembly re-assemble in July next that State House officers will be elected, while others contend that the present Legislature cannot legally elect these officers—that it is the duty of the Legislature to be elected the coming fall and which will meet under the law as it now exists in January next. In order that this matter may be definitely understood, it is necessary, first, to determine for what length of time they were elected and when their term of office commenced under the law as it then and still exists. The Constitution of the State says that these officers, naming them, "shall be elected by the General Assembly, and they hold their offices for the like period as the Governor." Article 4, section 1 of the Constitution says: "The Governor shall hold his office during the term of four years, and until such time as a successor shall be chosen and qualified." State House officers then hold their offices for four years from the time their term commences. The present incumbents were elected in August, 1868. Four years from that date would be August, 1872, and their terms would then expire, *provided* their terms commenced in 1868. But an ordinance of the Convention, appeared March the 10th, 1868, upon the subject of the election of said officers, says "so that said officers," (I think here it means officers elected by the people,) "shall each of them hold their office as though they were elected on the Tuesday after the first Monday in November, 1868, or elected, or appointed by the General Assembly next thereafter." Officers then elected by the Legislature hold their offices as though they were elected at the session next after November, 1868. The Assembly, next after that time, convened on the second Wednesday in January, 1869. This, then, is the commencement of the term of the present incumbents as well as that of the gubernatorial term. The ordinance referred to, has been re-affirmed by, and made part of, the Constitution itself. Article 2, paragraph 12, is in these words: "The ordinances of this Convention on the subject of the first election, and the first General Assembly, shall have the force of laws, until they expire by their own limitation, and all other ordinances of a mere legislative character, shall have the force of laws, until otherwise provided by the General Assembly." The ordinance then here made a part of the Constitution, commenced the terms of all officers, elected by the General Assembly in January, 1869, and consequently their term of four years does not expire until the second Wednesday in January, 1873.

It is stated, however, that while this is true, yet the 1364th section of Irwin's Code requires these officers to be elected "during the sitting or session which immediately precedes the beginning of the term which they are to fill." The advocates for the election by the present Legislature in July seem to rely upon this section exclusively, and think that it is imperative, and not all in conflict with the Constitution. It may not be in conflict with that instrument, yet it should be remembered, that the section of the Code referred to, was framed at a time when the term of these officers, as well as that of the Governor, was for two years only, but if properly construed, it does not authroize the election in July.

That sitting or session is but a part of the regular annual session of last January, neither of which is a sitting or session which immediately precedes the beginning of the term, and it has never been so construed before, for it has been the universal custom for the Legislature, inaugurating the newly elected Governor, to elect State House officers. If the election should come off at the next sitting, an outgoing Legislature would elect State House officers, while an incoming one would inaugurate the successor of the present Governor—a thing that has never been done since this has been a State. The truth is, the election for these officers cannot legally be held until in January, 1873, for before the present terms expire there will be the last expression of the will of the people had for a new Legislature. That newly elected body, fresh from the people, will have convened (as the law now stands) and in the discharge of their legislative duties ready to elect successors to the present officers the day their terms expire, if they so wish. This, then is the Legislature elected preceding the vacancy, and will be the one in session or sitting "*immediately* preceding" the beginning of the new term; then with the new Governor inaugurated, he will install the new State House officers, and all enter on their duties for the new term together as has been the universal custom. Again, the first four year Senators, whose terms are now expiring, participated in the election for the present officers, and if the election should come off by the present body they would be participating twice in the election of officers that are under the law elected for as long a period as themselves—another matter for which there is no precedent.

I cannot believe, therefore, that the present General Assembly will attempt to bring on the election of these officers. But enough on this subject now.

Thanking you for the space allowed, I am, etc.,

OUR WASHINGTON LETTER.

Amnesty—Cause of Defeat—Purchase of Arms by France—War with England, Etc.

WASHINGTON, February 13, 1872.

The defeat of the amnesty bill in the Senate on Friday last was unexpected by both friend and foe. The adoption of Mr Sumner's civil rights amendment was a foregone conclusion, but it was regarded as equally certain that the measure thus burdened would be sent to the House, there to meet the fate it was destined to encounter elsewhere and earlier. There need now be no hope for amnesty this session. Mr. Sumner is obdurate, and will persist in bringing up his amendment whenever an amnesty bill comes before the Senate. He has a double motive in pursuing this course. He wants to hold the position of the champion of the colored race, and he desires to defeat amnesty as a means of injuring Grant. It is evidently

WAR TO THE KNIFE

between these two, and Sumner occupies the vantage thus far. He does not content himself with standing on the defensive, but is openly and boldly aggressive. Yesterday he introduced a resolution calling for an investigation into the purchase from the War Department of arms and ammunition by France during her war with Russia, an inviting subject for investigation, and one that, properly followed out, is likely to convict this government of a serious breach of neutrality. Mr. Sumner proposes to call up the resolution to-day and the Senate cannot refuse the investigation, which Mr. Sumner insists shall be held with open doors, so that white-washing or concealment will be impossible.

Mr. Sumner has already done much toward alienating the negro vote from Grant, and now threatens the President with the loss of the German element, by proving that the administration lent aid to France, during the late war with Prussia, not warranted by the neutrality laws. This, with the influence of Senator Schurz, must ensure the defection of the greater portion of the German vote, while the Know-Nothing prejudices which have manifested themselves on the Radical side in both Houses most certainly serve the just ring of the party. Indeed, it looks as if nothing but

A WAR WITH ENGLAND

can save Grant. A declaration of hostilities would rally the Irish to a man, and insure to the present occupant a lease of the White House for four years more. For this reason the President may not hesitate to plunge the country into a war, for which it is wholly unprepared. That he has such intentions would appear evident from the following telegram sent hence by the agent of the American Press Association.

"There is the highest official authority for the statement that the administration is a unit in favor of preserving the status of the American case as presented to the Geneva tribunal, and that there will be no backdown in any shape."

THE TREATY.

There has been no change as yet respecting the questions at issue between the two countries. The explanation I gave a week ago fully cover the grounds, and are sustained by the best authorities here and elsewhere. It is still very clear that England will not permit these claims for consequential damages to be considered, and that she is right in protesting as she has done. A careful reading of the treaty, the protocols, and the speeches in the English Parliament at the time the treaty was adopted, shows that these claims are not admissable, and have been presented in violation of the understanding had with the British members of the Joint High Commission. Their presentation may be considered a sharp trick, but it is not good diplomacy, and is likely to recoil like a boomerang upon the heads of the administration.

"ONE RESULT

of the present misunderstanding between the two countries," says the Sunday Herald of this city, "has been to develop a very marked opposition to the Treaty in all quarters. Its adoption was generally commended at the time, and Grant considered it the trump card of his administration. It was to strengthen his position, and render his nomination and election sure. Now, it is pretty evident that whatever may be the ending of this business, whether the Treaty be abrogated or the arbitration proceeded with, it will prove a losing game to Grant. That war will arise from the present combinations few anticipate, though many would doubtless hail a declaration of hostilities with pleasure. "It would revive our shipping interests without the aid of Congress," was remarked the other day; and so it would, but at what cost to other interests? A war with England would doubtless ensure to Grant four years more in the White House, and for this reason alone he may not hesitate to bring it about."

[CONTINUED TO-MORROW.]

NOMINATED FOR THE SENATE.—A dispatch to this paper, dated Albany, February 15th, informs us that Colonel C. W. Styles, of the Albany News, has been nominated as the Democratic candidate for the State Senate from the Tenth District to fill the vacancy caused by the resignation of F. O. Welch, of Michigan. The Colonel has the odds against him, bot we hope and believe he will reach the winning post with several lengths to spare.—*Telegraph and Messenger.*

☞ It seems that the Illinois Republicans are falling into line with the Missouri and Iowa Repulicans in opposition to Grant's re-nomination, the popular branch of the General Assembly having passed the one-term resolutions, and denounced President Grant's course in sending troops to Chicago. *Illinois Sentinel.*

☞ A celebrated French preacher, in a sermon upon the duty of wives, said: "I see in this congregation a woman who has been guilty of disobedience to her husband, and in order to point her out I will throw my breviary at her head." He lifted his book, and every female head instantly ducked.—*Exchange.*

☞ The other day a Montreal tailor sent his bill to a magazine editor. He was startled a few hours afterward by its being returned with the following note appended: "Your manuscript is respectfully declined."—*Exchange.*

☞ The latest story is that William Morgan, who was always supposed to have been the victim of the great Freemasonry excitement, escaped to Texas and married an Indian girl, and that Cochise is his son.

ASSOCIATED PRESS DISPATCHES.

WASHINGTON.

WASHINGTON, February 16.—The case of O'Dowd vs. the Mayor of Augusta, Ga., etc., argued for a dismissal by Hilliard and Carr, indictment against the Cuban General, Ryan, for the violation of the neutrality law, is quashed.

Commissioner Douglas is preparing a report for taxes upon the proposed consolidation of the whisky tax.

Collector Robb had a long hearing to-day before the Senate Finance Committee upon rice and salt.

The Senate bill reviving the land grant to the St. Croix and Superior Railroad, passed. The resolution of inquiry respecting the sales of arms, was resumed.

The Senate then adjourned.

In the House, the bill admitting photographs for the approaching National Exhibition, of Cleveland, free of duty, passed.

Beck made a personal explanation, answering Brownlow, who attacked him by a written speech in the Senate. Beck reviewed the history of Tennessee during Brownlow's Governorship, showing that Brownlow made it a pandemonium. Beck was repeatedly interrupted by points of order, but Blaine, supported by Banks, ruled favorably. In the course of his speech, Beck said:

"What I said about a pandemonium in Tennessee, was about all the other Southern States, and a good deal more about some of them. One man, Davis, of Texas, was looking me in the face when I said it. I said more against Governor Bullock, of Georgia, who sat by my side, and they are not all cripples nor all imbeciles. I have never told a lie, and I am prepared to prove every fact I have stated here, or elsewhere, they thought they would put a man to speak against me, of whom they could say that he is a cripple; that he cannot write; that he cannot read; he cannot walk; and they shield themselves behind him. They are not all cripples; all the rest of them can walk. I will prove what I said against every one of them; and it is because they know that I will do it, is because Reed, of Florida, Scott, of South Carolina, and Davis, of Texas, and all of them, know that I will prove it; because they know I have been prominent in getting up a report which will be before the country in less than a week, that they are lying to blacken me, so that when the people take up the report and read it, they may say: "Oh, it is that fellow Beck who was a negro driver that says this." That is their game. That is the reason why they send a poor old imbecile to attack me, and disavowing any disrespect against the Senate from its more glorious traditions, Beck concluded that he had not said anything to reflect on the Senate, but when he saw vultures setting in the nest of the eagle, and baboons taking the place of a lion, he protested against the outrage; he wanted to keep the Senate pure and high-minded; he wanted to see the States represented by honorable men, not by men who forced themselves in there at the point of bayonets, or by fraud, corruption, chicanery or ostracism.

INDEX TO NEW ADVERTISEMENTS.—The Spencerian Double Elastic Steel Pen is of superior English manufacture.

G. W. Adair, Real Estate Agent, has a new steam Flour Mill, Engine and machinery for rent or sale.

Colonel G. W. Adair has a number of rooms on Whitehall street, and stores for rent

Bell & Goldsmith has a five-room cottage, on a superb lot, in a first-class neighborhood for sale.

S. R. Kramer applies to Judge Pittman for exemption of personalty.

Stove wood sawed any length. See notice.

The Sterling Store still in the field

Lewis Cook is receiving fresh fish daily.

STORM.—Atlanta was visited last night by a severe storm of wind, rain and lightning.

THIRD BAPTIST CHURCH.—Rev. J. H. Morgan, late of England, will preach in the Third Baptist Church Sunday morning at 10½ o'clock, and at night.

HOME AGAIN.—The Mardi Gras excursionists who went to New Orleans via the Blue Mountain route returned yesterday evening, delighted with their trip. We learn that they were so enthused with mardi gras that some of them propose forming a mystic krewe of komus in this city.

MAJOR CAMPBELL WALLACE.—We learn that Major Campbell Wallace, President of the Georgia Western Railroad has engaged a suite of rooms at the Kimball House, and will have his headquarters there He will arrive here in a few days and will enter at once on the discharge of his duties.

GRAND BAZAAR.—Scott & Co.'s Grand Bazaar, No. 34 Whitehall street, opens to-day with one of the best selected stocks of fine Chromos, Silver-plated Ware, Gold Pens, etc., ever offered in Atlanta, at the uniform price of one dollar for each article. There will be a grand rush to day there.

THOMPSON.—The many friends of the great restauranter, Thompson, were pleased to greet his return yesterday evening from New Orleans. He brought with him New Orleans oysters and bananas of superior quality. He received last night one of the largest of bucks from Nashville, and has a choice supply of ducks, partridges, celery, etc. He knows how to serve them up in royal style.

FRESH FISH.—Lewis Cook, Whitehall street, informs our readers that he is prepared to furnish the public generally with shad during the season. He also receives daily from Mobile, Ala., fresh supplies of the best sea fish. He is now daily supplying with fish parties along the various railroads that lead into Atlanta. The fish trade of Atlanta is certainly increasing.

THE PRESS MEETING.—The ball room of the H. I. Kimball House has been tendered to the Georgia Press Association as a place of meeting in May. It is understood that the editors will all appear in their slippers.

Thus remarks Harris of the Savannah News. Harris has promised to be present which ensures a full supply of *light* for the occasion. He will appear *au naturelle*.

THE Old Reliable Theatrical Company appeared for the first time, before a Norfolk audience, on last Tuesday night, and the performance is very highly complimented by the press of that city. The Virginian says the Lynchburg papers "have not exceeded the mark in laudation," and that "Miss Helen D'Este is, without doubt, the most charming actress we have seen." We are gratified that the oft-repeated opinions of the Republican are endorsed by such high authority as the Virginian, and congratulate the company that the performances are being witnessed by intelligent and appreciative audiences. *Lynchburg Republican.*

GEORGIA NATIONAL BANK CASE.—As was stated in our issue of yesterday, this case was postponed on account of the sickness of counsel, until Monday, when the application for an injunction will probably be refused Under an act of Congress and decisions of the United States Supreme Court, it is not believed that the case will lie for want of jurisdiction.

We hear also that the Governor will probably take the responsibility to allow individual depositors to withdraw their deposit—under proper precautions however. This will be a relief to many innocent individuals, including some widows and orphans, and the act will be approved by all right-feeling people.

A BRACE OF ACCIDENTS.—The down passenger train on the Georgia Road on Thursday met with an accident two miles this side of Dearing The coupling between the baggage and express cars broke, and one ran into the other. The express messenger was slightly scratched. The only injury sustained was in the detention of that and the up-passenger trains. The latter did not reach this city until nine o'clock yesterday morning.

The down freight train also ran off the same day below Dearing Farmer Fogy was on board, in the cab car, and after putting on the brakes, jumped through the window, and landed safely on terra firma with the loss of his pantaloons and part of his shirt. He got out by a close squeeze. Very little damage was sustained by the road.

HAIGHT'S CIRCUS.—Mr. Andrew Haight's Circus and Menagerie, after making a triumphal tour through Florida, North Carolina and South Carolina, returns to this city to-day and goes into quarters for the season. A great many new cages of animals have been added to the menagerie. If the weather permits he will give a performance to-day and to-night, but owing to high licenses, if the weather is unfavorable, there will be no performance. The horses and performers are winning high encomiums everywhere. This is an Atlanta institution, and has spent in the past, and will doubtless spend in the future, more money in the city than it receives here. As we know that Mr. Haight endeavors to remove all objectionable features from his show, we wish him the greatest success.

THE HOYT CASE.—Yesterday H. O. Hoyt appeared before the committee to investigate the official conduct of Governor Bullock, and tendered O. L. Pease and David McBride as additional securities on his bond. Mr. Pease testified that he was worth $10,000 above his liabilities, and Mr. McBride testified that he was worth $4,000 above all claims against him.

When informed that the Committee would not accept the additional security offered, Mr. Hoyt was observed to reel and fall to the floor. This happened about half past three o'clock. He was carried to the office of Drs. Miller and Johnson for treatment. Mr. Hoyt frothed at the mouth, was extremely pale and almost pulseless. For four or five hours he showed but little sign of reaction. At the present writing (11 o'clock) a slight reaction has taken place, and he is a little better. His condition was caused by nervous prostration produced by the mental excitement of the past three or four days.

THE CITY ENGINEER.

OFFICE OF CITY ENGINEER,
ATLANTA, GA., February 16th, 1872.

To the Honorable Mayor and Council of the City of Atlanta: Your Engineer proposes, since the passage of the Grade bill, to furnish his own help, and fix the grades of all the streets, and make maps and profiles of all streets; he also proposes to make a map of each block in the city, separate and distinct to itself, showing each lot and the number of feet bounding it, who it belongs to and the height of grade at the corner of each lot, fronting on any street. This map will be of vast assistance to the city assessors, as it will enable them to assess every foot of ground in the city, thereby saving the city hundreds of dollars.

He proposes to devote his whole time to the work of the city and do private surveying for no one. It is very important that the city have the work commenced at once.

Your Engineer was informed that it cost the city of Memphis $8,500 to have such a map made.

Your Engineer proposes to furnish his own help, instruments and stationery, and devote his whole time to the work, provided the city will appropriate $3,000 per year: or if the city will furnish two assistants, stationery and instruments, he will be satisfied with $1,800 salary.

Respectfully submitted

HUGH ANGIER, City Engineer.

Referred to Street Committee.

HEALTH! BEAUTY!!

Strong and Pure Rich Blood—Increase of Flesh and Weight—Clear Skin and Beautiful Complexion Secured to all.

Dr. Radway's Sarsaparillian Resolvent

Has made the most astonishing Cures; so quick, so rapid are the changes the Body undergoes, under the influence of this Truly Wonderful Medicine, that

EVERY DAY AN INCREASE IN FLESH AND WEIGHT IS SEEN AND FELT.

THE GREAT BLOOD PURIFIER.

Every drop of the SARSAPARILLIAN RESOLVENT communicates through the Blood, Sweat, Urine, and other fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, Glandular disease, Ulcers in the throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumorous discharges from the Ears, and the worst forms of Skin diseases. Eruptions, Fevers, Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its potent powers to cure them.

If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood—and this the SARSAPARILLIAN will and does secure—a cure is certain; for when once this remedy commences its work of purification, and succeeds in diminishing the loss of wastes, its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving, and flesh and weight increasing.

Not only does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases; but it is the only positive cure for

Kidney and Bladder Complaints

Urinary, and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid, dark, bilious appearance, and white bone-dust deposits, and when there is a pricking, burning sensation when passing water, and pain in the Small of the Back and along the Loins.

OLD PREJUDICES ARE DYING OUT. Facts are killing them. The idea that invalids weakened by disease can be relieved by prostrating them with destructive drugs, is no longer entertained except by monomaniacs. Ever since the introduction of DR. WALKER'S VINEGAR BITTERS it has been obvious that their regulating and invigorating properties are all-sufficient for the cure of chronic indigestion, rheumatism, constipation, diarrhoea, nervous affections, and malarious fevers, and they are now the standard remedy for these complaints in every section of the Union.

THE BONDS OF GEORGIA.

Official Notice to the Bond Holders.

An Act

To protect the people of the State of Georgia against the illegal and fraudulent issue of bonds and securities, and for other purposes connected with the same.

Whereas, Divers bonds, purporting to be bonds of the State of Georgia, and divers bonds bearing the indorsement of the State, have been issued and put in circulation by Rufus B. Bullock, late Governor of said State, and divers bonds issued prior to his administration, have been negotiated by him: And whereas, it is believed that a large portion of said bonds have been illegally and fraudulently issued and negotiated, and the extent and amount of said bonds so issued and negotiated is unknown to this General Assembly.

Section 1. Be it enacted by the Senate and House of Representatives of the State of Georgia, That there shall be a committee appointed of three, one by the President of the Senate, and two by the Speaker of the House of Representatives, who shall have full power and authority to examine and ascertain the number of bonds which have been issued as hereinbefore recited in the preamble of this act, and the aggregate amount thereof; and so far as they have been sold or hypothecated, by whom sold, the amount of money paid, to whom paid, when paid, for what purpose negotiated, and all other facts connected with the history of said bonds, and to report the same to the General Assembly at its next session.

Section 2. Be it further enacted, That said committee so appointed, be authorized and required to meet and sit in the city of Atlanta during a term not exceeding sixty days, commencing March 1, 1872, for the purpose named in the first section of this act, and said committee are hereby invested with full power and authority to examine witnesses under oath, to send for persons, books and papers, and to exercise such other power as may be necessary to carry into effect the provisions of this act.

Section 4. Be it enacted further, That all persons holding bonds of the State of Georgia, or bearing the indorsement of said State, issued since July, 1868, are hereby required to report the same to said committee for registration on or before the first day of April, 1872, and upon failure so to report said bonds, and to submit the same for registration, the same shall be deemed *prima facie* to have been illegally or fraudulently issued.

Section 5. Be it further enacted, That the Treasurer of said State, be, and he is hereby prohibited from paying any interest on any bonds issued, negotiated or indorsed by the State since the 4th day of July 1868, until said Committee shall have made their report and the General Assembly shall otherwise direct.

Section 6. Be it further enacted, That nothing contained in this act shall be so construed as to pledge the State of Georgia to the payment of any bonds issued or indorsed by the State since the 4th day of July, 1868, by reason of said bonds being registered as prescribed in this act, should it afterwards appear that the same have been illegally or fraudulently issued.

Section 7. Be it further enacted, That the Governor be and he is hereby authorized and required to draw his warrant upon the Treasury in favor of said committee or such persons as they may designate for an amount sufficient to defray the expenses of publishing this preamble, and such other printing as may be necessary to carry into effect the provisions of this act.

OFFICE SECRETARY OF STATE,
ATLANTA, GA., December 12, 1871.

The above and foregoing four pages of written matter contain a true and correct copy of the original of file in this office.

Given under my hand and the seal of office.

DAVID G. COTTING,
Secretary of State.

To all whom it may concern:

Notice is hereby given, that we, the undersigned joint committee, appointed by the President of the Senate and Speaker of the House of Representatives, under authority of the foregoing act of the General Assembly of Georgia, will begin our sittings in the city of Atlanta, State of Georgia, United States of America, on the first day of March, 1872, and will remain in session until the first day of May, 1872, for the purposes indicated in said act.

The attention of persons owning or holding the bonds of the State of Georgia, or the bonds of railroads indorsed by the State of Georgia, and who expect to present the same to the committee, is called to the first section of said act, as to the nature of the testimony required.

Persons desiring to communicate with the committee will address Thomas J. Simmons, Chairman, care of N. L. Angier, State Treasurer, Atlanta, Ga.

Signed at the Capitol, in the city of Atlanta, State of Georgia, United States of America, the 12th day of December, 1871.

DEAD OR DYING.—Where the hair is unnaturally dry, you may be sure that it is dying; and unless artificially vitalized, it will soon be as dead as leaves in November. Feed the withering fibres and stimulate the torpid scalp with Lyon's Kathairon, and the evil, which must otherwise soon culminate in baldness, will be speedily remedied. It is absolutely necessary for the health of the brain, that it be kept moderately moist with a preparation capable of nourishing and invigorating it. Lyon's Kathairon fulfills these conditions, and is the only article that actually puts new life into the capillary tubes, through which the natural nourishment has ceased to pass. This pure and harmless vegetable preparation is absorbed by the skin of the head to the roots of the hair, and passes into the filaments by the force of capillary attraction.

AN EXPENSIVE NUISANCE.—Sickness is an expensive nuisance; generally makes people selfish, and, nervous, mean, and miserable. To escape these dreadful troubles, keep the blood enriched, the nerves strong, by using Dr. Price's Blood Enricher, before the disease has taken a firm hold. This remedy contains the agents in proportion calculated to impart physical and mental vigor. If not found at one drug store will find it at another. Ask for Dr. Price's Blood Enricher.

ALL THE YEAR ROUND, and in all parts of the world, the elements of disease are present in the air, soil and the water, in a greater or less degree, and therefore the Great Vevetable Antidote to these invisible enemies of health, Hostetter's Stomach Bitters, is invaluable as a household medicine at all seasons in every latitude. At no period of the year is a regulating and corrective medicine more needed than toward the close of winter, when the sun and rain are beginning to break up the winter blockade, and from the softening soil arises that terrible miasma, which weighs like an incubus upon the vital machinery, and depresses the animal spirits. It is then that the seeds of intermittent and remittent fevers, of rheumatism and rheumatic gout, of obstinate stomach complaints, of disorders of the liver and bowels, and a whole host of pulmonary and nervous complaints are sown.

The best, the surest way to prevent this disastrous seeding is to invigorate and refresh the system with a course of the Bitters. If this precaution be taken now, there will be no danger of the miasmatic germs taking root in the fluids and tissues of the body, and bringing forth terrible fruit in the spring. Now is the time for prevention. Remember that vigor is the only safeguard against the virus of disease, and that Hostetter's Bitters is the purest, the safest, the most powerful and perfect invigorant ever administered, either as protective medicine or a remedy. A change of season approaches which almost always proves more or less disastrous to persons of a weak, nervous organization. Brace up at once with the leading Tonic of the age. Purge from the blood all morbid matter, strengthen the nerves, and regulate and purify the secretions with the Vegetable Elixir, which combines the juices of the finest medicinal roots, herbs and barks, with the most wholesome of all diffusive stimulants.

City Hospital.

THE need of a CITY HOSPITAL for Atlanta has long been felt, but all efforts heretofore for the establishment of such have failed, our people being too poor to raise the money necessary for such a purpose, and the depleted condition of our State Treasury being such as to render successful legislation in the matter both impracticable and hopeless.

It is, therefore, proposed to appeal to all friends of so benevolent a project, and thus secure a nucleus to encourage an increase of the private donations already promised, which will render the scheme a success; and while the erection of such an Institution will be an enduring Monument to the Charity and Liberality of our citizens, it will also be in keeping with our onward march in the cause of

Civilization and Progress.

For every Two Dollars subscribed, an equal interest will be given the holder of Certificate thereof in the distribution of

$75,000 Worth of Property,

Numbering 1,500 Articles

To be distributed by the Board of Commissioners as soon as all the Shares are taken.

50,000 Shares

$2.00 Each $100,000

The value of the separate interest to which the holder of certificate will be entitled will be determined by the Commissioners who will announce to the public the manner, the time, and the place of distribution.

The following gentlemen are to act as Commissioners, and will receive and take proper charge of the money for the Hospital, and will determine upon the plan and site for the same, to-wit:
